

Chad Austin White, Product Designer

I am passionate about crafting impactful and inclusive experiences that not only delight users but also meet business objectives, navigate technical challenges, leverage user insights, and foster collaboration with my colleagues.

Experience

Principal Product Designer (Contractor), Worldpay

Apr 2024 - Jul 2026

- Led strategic experience design initiatives across risk, merchant onboarding, and payment experiences, contributing to a 32% increase in merchant signups and improved partner conversion performance.
- Defined scalable experience strategies for complex fintech workflows by leveraging behavioral psychology, usability heuristics, user research, analytics, customer insights, and data-informed decision-making.
- Partnered with executive stakeholders, product leadership, design, research, and engineering teams to align business objectives with a cohesive long-term platform experience vision and roadmap.

Product Designer III, Expedia Group

May 2022 - Present

- In the last 12 months, implemented a series of design iterations that contributed to generating \$300 million in Gross Revenue and \$6.1 billion in Gross Booking Value, with over 72k hotels using the platform.
- Optimized the design-to-development workflow by integrating AI-powered tools, including Cursor and GitHub, into daily processes, accelerating iteration cycles, and increasing team efficiency.
- Applied design principles, behavioral strategies, and user insights to enhance user engagement and boost retention of the product by 25%.

Lead UX Designer, First American Title

Jun 2020 - May 2022

- Drove adoption of a core underwriting platform to 25,000+ underwriters by identifying workflow friction and leading a usability-focused redesign.
- Initiated and led cross-functional design workshops with key stakeholders, aligning on customer problems, prioritization, and accelerating strategic decision-making to reduce iteration cycles and deliver solutions faster.
- Owned end-to-end design from discovery to delivery, using prototyping and testing to simplify workflows and improve implementation quality and user efficiency.

UX Designer, Car Finance Capital

Apr 2019 - Apr 2020

- Scaled product adoption to 100,000+ users in 6 months by applying user research insights and UX best practices to identify key friction points, leading the redesign of purchase and refinancing flows.
- Redesigned end-to-end user flows and built low- to high-fidelity prototypes, simplifying complex tasks and improving usability.
- Delivered clear, scalable UI specifications and partnered with engineering to ensure consistent, high-quality implementation.

Experience

UX/UI Assistant Instructor, Trilogy Education

Feb 2018 - Dec 2018

- Led 60+ students through a 10-week UX/UI boot camp, covering foundational design concepts, best practices and visual techniques.
- Taught user-centered design and design thinking methodologies, with step-by-step instruction for skill development.
- Introduced modern research methods and interview techniques, integrating them into hands-on learning.

UX Designer, The Apex Agency

Mar 2017 - Apr 2019

- Led ideation and rapid prototyping (low- to high-fidelity), accelerating design cycles by 30% and enabling faster validation of solutions.
- Created strategic pitch decks that supported customer acquisition, contributing to 12% growth in new users and successful project delivery.
- Owned strategic pitch decks that drove client acquisition and contributed to successful project delivery.
