

Chad Austin White, UX Designer

I am passionate about crafting impactful and inclusive experiences that not only delight users but also meet business objectives, navigate technical challenges, leverage user insights, and foster collaboration with my colleagues.

Experience

UX Designer III, Expedia Group

May 2022 - Present

- In the last 12 months, implemented a series of design iterations that contributed to generating \$300 million in Gross Revenue and \$6.1 billion in Gross Booking Value, with over 72k hotels using the platform.
- Applied design principles, behavioral strategies, and user insights to enhance user engagement and boost retention of the product by 25%.
- Collaborated across product, research, content, design, and engineering teams to quickly build a shared understanding of the space and deliver impactful solutions for users.

Lead UX Designer, First American Title

Jun 2020 - May 2022

- Facilitated design workshops with cross-functional teams (product management, research, design, engineering, and executive leadership) to generate and optimize design solutions.
- Designed user flows, journey maps, wireframes, high-fidelity comps, and prototypes rapidly and iteratively, driving the design process forward.
- Produced detailed UI and visual design specifications, providing clear guidelines for development and ensuring design integrity.

UX Designer, Car Finance Capital

Apr 2019 - Apr 2020

- Organized and conducted user research, including interviews and task formulation, to gather insights that enhanced product usability.
- Redesigned user flows and generated both low and high-fidelity prototypes in Sketch, streamlining the purchase/refinancing process.
- Created comprehensive UI and visual design specifications, offering clear development guidelines and maintaining design consistency.

UX Designer, The Apex Agency

Mar 2017 - Apr 2019

- Managed stakeholder expectations, balancing competing priorities, business requirements, technical constraints, and quality standards in a fast-paced environment.
- Lead ideation of both low-fidelity and high-fidelity comps, interactive prototypes, and iterative design solutions.
- Designed strategic pitch decks that supported customer acquisition efforts and contributed to the successful completion of projects.

Experience

UX/UI Assistant Instructor, Trilogy Education

Feb 2018 - Dec 2018

- Guided 30 students through a 10-week UX/UI boot camp, covering core design best practices and visual techniques.
- Taught user-centered design and design thinking methodologies, with step-by-step instruction for skill development.
- Introduced modern research methods and user interview techniques, integrating them into hands-on learning.
- Hosted weekly reviews and demonstrated industry-leading design software for success in the professional field.

Contract UX Designer, The Tony Robbins Foundation

Jan 2017 - Mar 2017

- Executed style guide, wireframes, and front-end visual language using Sketch App.
- Prototyped interactions to enhance user flow and overall site experience with InVision and Principle.
- Balanced client and user needs through feedback and testing.

Education

Deque University

Web Accessibility, Dec 2024

IBM

AI Team Essentials, Jan 2024

The Art Institute of San Diego

Bachelor of Science in Graphic Design, Mar 2009
